SOLD

This graceful Mediterranean styled vacation home is located in the exclusively gated residential community known as the Villages of Crystal Beach and harkens back to a nostalgic charming laid back golden era. Seclusion features four bedrooms with the ability to accommodate 12 fortunate guests. Lush landscaping gives this wonderful world a truly tropical feel. It is centered upon a lavish resort swimming pool that resembles a long lovely lagoon that is adorned with towering palms, waterfalls and has a stone island in its center. Water cascades down over the rocks on all sides of this miniature island and splashes into the pool beside it providing refreshment on hot summer days. Another waterfall anchors the entrance and pours down into the pool at the other end.
